

## Curriculum and Creativity in a Box

Do you know a preschool child who is fascinated with sea life, dinosaurs, or wild animals? If so, Opportunity Council has the answers in the size of a shoebox! Child Care and Family Resources is providing our community with early learning and school readiness materials! We have received a donation to help provide families in Whatcom, Island, and San Juan counties with early learning kits designed to help support school readiness. Whatcom County residents can make an appointment with Resource and Referral at Opportunity Council to check out a kit; Island County residents can go to their local Sno-Isle Library to check out a kit; and San Juan County residents can go to the libraries on San Juan, Lopez, Orcas, or Shaw Islands to check out a kit. The early learning kits consist of specific books, activities, and instructor materials based on a particular theme. The kits can be used to either reinforce your child's classroom curriculum at home, or introduce your child to curricula at an early age!

Complete listing of available theme kits: Colors, Communities & Careers, Dinosaurs, Earth & Environment, Farms, Insects & Spiders, Pets, Sea Life, Seasons & Weather, Space, Tools & Machines, Transportation, and Wild Animals
