

**Opportunity Council is now enrolling
for the 20-21 preschool program year and for Early Head Start.**

Opportunity Council is working closely with local school districts and the Whatcom County Health Department to determine the best course of action moving forward.

We will use the best and latest guidance from public health officials to determine our fall model, which might mean a traditional classroom approach, virtual learning/services or some combination of both.

Currently, we offer Early Head Start year-round services and preschool programs during the school year.
